The Black List was compiled from the suggestions of more than 375 film executives, each of whom contributed the names of up to ten favorite feature film screenplays that were written in, or are somehow uniquely associated with, 2021 and will not have begun principal photography during this calendar year.

This year, scripts had to receive at least seven mentions to be included on the Black List.

All reasonable effort has been made to confirm the information contained herein.

The Black List apologizes for all misspellings, misattributions, incorrect representation identification, and questionable 2021 affiliations.

It has been said many times, but it’s worth repeating:

The Black List is not a “best of” list. It is, at best, a “most liked” list.
“Something is stirring, shifting ground
It’s just begun
Edges are blurring, all around
And yesterday is done
Feel the flow, hear what’s happening
We’re what’s happening
Don’t you know, we’re the movers and we’re the shapers
We’re the names in tomorrow’s papers
Up to us man, to show ‘em
It’s our time
Breathe it in
Worlds to change, and worlds to win
Our turn, coming through
Me and you man, me and you”
